Classification: UNCLASSIFIED  
Caveats: NONE

Marc Molly and I of USACE all believe that the USACE QMP that we have in place with EPA 8, covers environmental data in contracts acquired by the USACE, with funding from an EPA Interagency Agreement IA. For work under one of these IA's, there is no need for the contractors to also have a QMP in place with USACE or EPA. Dave Ray is designated the Quality Assurance Manager in this USACE Omaha EPA 8 QMP, for Omaha's work under IAs with the EPA 8. Upper Animas IA is one of the IA's, and the USACE EPA 8 QMP is referenced for environmental data in the IA.

Molly, you are correct, only one QMP between USACE and EPA Region 8. The QMP requires every

contract has documents associated with it that start with Q (such as QASP, QAPP), but not a QMP.  
Marc

Caveats: NONE

It is my understanding that the QMP satisfies the requirement for all projects. We don't have QMPs that are project specific.

I did not think our EPA 8 Omaha Distr. QMP required each contractor working for us to also have a QMP?  
Can you verify?

I don't think we have a Libby QMP for USACE contractor work.

OK, that makes sense. Can the Omaha District QMP with EPA 8 be referenced to meet the requirements of the Crossover, or is a project specific QMP required?

Subject: [EXTERNAL] QMP for Upper Animas Mining District

Team,

Attached is the Draft QMP for Upper Animas Mining District. The document is written more as a program level document than a project specific document, and as such includes more detail than is required for the review and organization of environmental data for this project. This document was derived from an existing CB&I program with EPA. Details pertinent to the Animas project are present throughout, and the details for environmental data review and organization are addressed in Section 7. Please let me know if this meets your requirements.

Thank you,

David
